

Sahil A Gowda

Bengaluru, India | sahilgowda204@gmail.com | +91-9945886311 | [LinkedIn](#) | [GitHub](#)

Professional Summary

Software Development Engineer with production experience across backend systems and applied AI, building RESTful APIs and high-volume data pipelines with **Spring Boot** and **PostgreSQL** while shipping **RAG** and agentic systems using **LangChain**, **LangGraph**, and **Elasticsearch**. Delivered a **273M+ record** ingestion pipeline, cut report-module query latency by **60%**, and built a multi-tenant **WhatsApp** automation agent on Meta's Cloud API. Owns features end-to-end, from design through production debugging.

Technical Skills

Languages	Java, Python, C, SQL
Java Tech Stack	Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, REST APIs, Servlets, JDBC
AI/ML Stack	LangChain, LangGraph, RAG, Vector DBs (Milvus, Pinecone), Meta WhatsApp Cloud API, Nginx
Databases & Tools	PostgreSQL, MySQL, MongoDB, Elasticsearch, Redis (basics), Maven, Git
AWS Services	EC2, S3, RDS, Lambda, API Gateway, SQS, SNS, DynamoDB, EventBridge
Testing & DevOps	JUnit, Mockito, Docker (familiar), Postman, Swagger
Core Concepts	OOP, Design Patterns, Microservices, MVC, ACID, Agile, CI/CD basics

Professional Experience

Software Development Engineer

May 2026 – Present

DIATON Solutions Pvt. Ltd. | Bengaluru, India

- Built a RAG chatbot with a document-ingestion pipeline for automated Q&A, evaluating **Milvus** and **Pinecone**; implemented production techniques – reranking, multi-representation indexing, query structuring, and logical routing.
- Shipped a multi-tenant WhatsApp agent for client Kärcher on Meta's **WhatsApp Cloud API**; configured **Nginx** and webhook callbacks on the Meta Developer Dashboard for a working MVP, including in-chat PDF delivery.
- Fixed a broken audio issue on the inbound voice calling agent and built a **human-transfer** feature to hand off live calls to a human representative.
- Extended **Lexi**, an internal code-understanding agent, to parse and understand **MuleSoft** code.

Software Engineering Intern

Oct 2025 – May 2026

DIATON Solutions Pvt. Ltd. | Bengaluru, India

- Built a high-volume data-ingestion pipeline handling around **273 million records** using **Spring Batch** with multithreaded, JDBC batch-insert processing.
- Built an Excel-workbook ingestion pipeline with **14+ validation rules**; fixed a heap-exhaustion issue caused by loading whole files into memory by switching to a streaming read via **Apache POI SXSSF**.
- Built **RESTful APIs** (Spring Boot) for a report module serving analytics over millions of records with multi-filter support; **Elasticsearch indexing** cut read-heavy query latency from **1s to 400ms (60% improvement)**, keeping **PostgreSQL** as the source of truth.
- Fixed a production server-timeout bug by converting synchronous Elasticsearch/PostgreSQL updates to **async**, and added an audit mechanism to verify write consistency.
- Root-caused a UAT-vs-production schema mismatch to a missing `liquibase.enabled` flag silently skipping migrations in prod; fixed the config and reconciled the schema.

Key Projects

Railway Reservation System [\[GitHub\]](#)

2024

Tech: Java, Spring Boot, MySQL, Hibernate, JWT, Maven

- Built a full CRUD ticket booking system using **Spring Boot MVC** with layered architecture (Controller–Service–Repository), covering train search, booking, and cancellation.
- Implemented **Role-Based Access Control (RBAC)** with JWT-based authentication for secure user/admin access; used **Hibernate/JPA** for database interactions.
- Applied core backend patterns: request validation, exception handling, and entity relationship design.

Education

B.E. Computer Science & Engineering

2022 – 2026 (Expected)

Cambridge Institute of Technology North Campus, Bengaluru

CGPA: 9.25 / 10.0

Coursework: DSA, DBMS, Operating Systems, Computer Networks, OOP, System Design

Certifications

AWS Certified Cloud Practitioner (2024) | **Selenium WebDriver with Java** – Simplilearn (2024)

Achievements & Leadership

- Hackathons:** 2nd Place – GDSC Quizzard 2024 | Finalist – Smart India Hackathon (SIH) 2025.
- Tech Lead, GDSC:** Mentored 50+ students in AI/ML concepts and organized technical workshops.
- Competitive Programming:** HackerRank 5-Star Java | LeetCode **450+ problems solved** | Active on CodeChef.
